

## **Wyoming State Statute: 21-4-309**

“ (a) Any person attending, full or part time, any public or private school, kindergarten through twelfth grade, shall within thirty (30) days after the date of school entry, provide to the appropriate school official written documentary proof of immunization... No school administrator shall permit a student to attend school for more than thirty (30) calendar days without documentary proof of immunization. Waivers shall be authorized by the state or county health officer upon submission of written evidence of religious objection or medical contraindication to the administration of any vaccine. In the presence of an outbreak of vaccine preventable disease as determined by the state or county health authority, school children for whom a waiver has been issued and who are not immunized against the occurring vaccine preventable disease shall be excluded from school attendance for a period of time determined by the state or county health authority, but not suspended from school as provided in W.S. 21-4-305...(iii)"Immunized" or "immunization" means initial immunization and any boosters or reimmunizations required to maintain immunization pursuant to the immunization standards and recommendations issued by the state health officer.”

# **Wyoming School Immunization Requirements**

Kindergarten – Grade 12

REVISED 2012

**Minimum Immunization Requirements:** Parents/guardians must provide proof of immunization or provide documentation of medical or religious exemption from mandatory immunizations within 30 days of enrollment.

Vaccination for	Kindergarten – Grade 6	Grade 7-12
Diphtheria/tetanus/acellular pertussis (DtaP) or Diphtheria/Tetanus/Pertussis (DTP) or Diphtheria/Tetanus (DT)	5 doses <sup>1</sup>	N/A
Haemophilus Influenza Type B (Hib)	1-4 doses <sup>2</sup>	N/A
Hepatitis B (Hep B)	3 doses	2-3 doses <sup>3</sup>
Measles/Mumps/Rubella (MMR)	2 doses	2 doses
Polio (IPV)	3-4 doses <sup>4</sup>	3-4 doses <sup>4</sup>
Tetanus/Diphtheria/Acellular Pertussis (Tdap) <sup>5</sup>	N/A	1 dose <sup>6</sup>
Varicella (chickenpox)	2 doses or documented history of disease <sup>7</sup>	2 doses or documented history of disease

Footnotes:

1. If a fourth (4th) dose of DTaP vaccine was administered on or after a child's fourth (4th) birthday, and at least six (6) months have passed since the third (3rd) dose, a fifth (5th) dose is not required.
2. The number of primary doses of Hib vaccine is determined by vaccine product and age of child when the series begins. If a child has not received the completed series of Hib vaccine and is younger than 60 months (5 years) of age, the child should receive one (1) dose of the Hib vaccine. Hib vaccine is not required for children older than 59 months of age.
3. Students who are in the 11th or 12th grade during the 2010-2011 school year will be required to have at least 2 doses of hepatitis B vaccine, according to the previous Rules and Regulations for School Immunizations.
4. Children who receive three (3) doses of IPV before the fourth (4th) birthday should receive a fourth (4th) dose before or at school entry. The fourth (4th) dose is not needed if the third (3rd) dose is given on or after the fourth (4th) birthday. If all four (4) doses are given after six (6) weeks of age and are all separated by at least four (4) weeks, a fifth (5th) dose is not needed, even if the fourth (4th) dose was administered before four (4) years of age.
5. Children eleven (11) years of age and older should receive the Tdap vaccine. Children with a medical contraindication to the pertussis (whooping cough) antigen should receive Td instead of the Tdap vaccine. Tdap vaccine may be administered to a child regardless of the interval since the last tetanus- or diphtheria-toxoid containing vaccine.
6. If a child in grades seven (7) through 12 received a Td booster after their seventh birthday but before age 11, he/she will be exempt until 10 years have elapsed since that dose was given. During the 2011-2012 school year, any student in grades eight (8) through 12 is considered exempt with the immunization requirements for Tdap. If the 7th-12th grader does not have a history of receiving any diphtheria, tetanus, acellular pertussis vaccinations, he/she will need 3 doses per the catch up schedule using Td (Tdap can be substituted for one of the three doses).
7. If a child has had chickenpox, the parent, guardian, school nurse, or physician must provide a written statement for the student's permanent school record.

## Campbell County School District #1

### Mandatory Immunizations for Children Attending Schools; Exceptions (Wyoming State Statute: 21-4-309)

1. Students of Campbell County School District will abide by Wyoming State Statute: 21-4-309 (a).
