Teaching Effectively — Learning Successfully

WYOMING
HATHAWAY
SCHOOL DISTRICT

The state of Wyoming provides Hathaway Merit and Need-Based Scholarships to all eligible Wyoming students attending the University of Wyoming or Wyoming community colleges.

The Summer Connection is published by Campbell County School District and distributed to students entering third grade.

The booklet consists of summer activities which review second grade skills in the areas of math, reading, language, science, and social studies. Your child will also enjoy the many art and critical thinking skill activities that are included in this booklet. These activities will appeal to children as fun while helping them to maintain and advance their academic skills. In addition, it is hoped that the family will find enjoyment in doing things together.

Parents are encouraged to help their child by providing direction, assistance, and a small collection of materials such as pencils, crayons, scissors, paste, and envelopes for storage of flash cards.

Please note the three different sections of the booklet.

THE FIRST SECTION is of special interest to parents. Here you will find places of interest to visit and tips on working with your child. In addition, a suggested book list has been provided to assist parents in selecting books for their children to read. RESEARCH INDICATES ONE OF THE GREATEST WAYS PARENTS CAN HELP THEIR CHILDREN IN SCHOOL IS TO READ ALOUD TO THEM FREQUENTLY.

THE NEXT SECTION is designed for use by the child with help and direction from an adult.

THE LAST SECTION is of heavier paper and in most instances the pages are to be cut apart by the child and used as flash cards, game cards, puzzles, etc.
