

August 4, 2020

Fifth Grade Parents,

Because of the recent pandemic, Campbell County School District has decided to reschedule Mallo Environmental Camp from Fall 2020 to Spring 2021. This will give the district time to get all students back into their school routine and hopefully give enough time to reduce the health concerns.

The new camp dates will be in May. We will schedule Mallo Camp parent meetings for April. At this meeting, you will receive the schedule for your child's camp, as well as, any additional information you will need.

Our top priority at CCSD is the safety and wellbeing of our students. We look forward to fifth grade students enjoying their Mallo Camp adventures without the added health concerns.

If you have any questions, please contact your child's building principal.

Thank you!!
